Risk Test

Place a check in the box next to each statement that most accurately reflects your attitude about investing.

1. I am more concerned about protecting my assets than about growth.
2. I prefer the ease of mutual funds to the uncertainty of trying to pick winning stocks.
3. Professional advisors and mutual funds may achieve higher growth than I can.
4. I am comfortable with investments that promise slow, long term appreciation and growth.
5. I don't brood over bad investment decisions I've made.
6. I feel comfortable with aggressive growth investments.
7. I don't like surprises.
8. I am optimistic about my financial future.
9. My immediate concern is for income rather than growth opportunities.
10. I am a risk taker.
11. I make investment decisions comfortably and quickly.
12. I like predictability and routine in my daily life.
13. I usually pick the tried and true, the slow, safe but sure investments.
14. I need to focus my investment efforts on reserve funds and insurance rather than growth.
15. I prefer predictable, steady returns on my investments, even if the return is low.
